

FC17-D

Introduction

FC17-D is a Facial/Mifare card/Password reader. Using the latest active visible light technology its recognition speed has been vastly improved to less than 1sec.

This model allows wide pose angle, allowing user face to be captured at an angle of +/- 30 degrees.

With its built-in door access controller, it allows user to link up to a door access, making this model ideal to be mounted next to a door.

Features

- Visible Light Facial Recognition
- Improve hygiene with contactless biometric authentication
- Anti-spoofing algorithm against print attack (laser, color and B/W photos), videos attack and 3D mask attack

Wide Pose Angle

Facial/Card/PIN

Fast Recognition

Fast Network

Specifications

Face Capacity

3,000 Faces

ID Card Capacity

3,000 Cards

Transaction Capacity

10,000 Transactions

Authentication

Facial/PIN/Mifare or EM

Network Interface

TCP/IP/WIFI (Optional)

Display

5 inch Touch Screen

Operating Voltage

12V 3A

Size

91.93 x 202.93 x 21.5 mm (WxHxD)
